

## Party Time (PetFinder.my Theme Song)

Let's show the way

To find a lovely place

So you can leave the lonely days

When you're a homeless stray

A doggy that he seeks

Or a kitty that she needs

As long as they've the love to give

You'll be the perfect little kid

Oh shake your little paws and waggle your tail

Dancing on your heels

So special in your ways and a little naughty

We'll find you a family

Just shake your little paws and waggle your tail

Your fur's so nice to feel

We'll get you loved a lifetime and not to forget

Kiss kiss every night

Many pets have found

Their homes and playground

So don't you give up hope for now

You'll soon be safe and sound

A journey that's so rough

But we must all be tough

The care you get is not enough

So let us shower you with love

Oh shake your little paws and waggle your tail

Dancing on your heels

So special in your ways and a little naughty

We'll find you a family

Just shake your little paws and waggle your tail

We want you to feel

The warmest love a lifetime and not to forget

Kiss kiss every night

(Shake your paws, waggle your tail, wow wow  
wow wow wow... x4)

Let's party through the night
